

**METHOD AND APPARATUS FOR
CONFIGURING INTEGRATED CIRCUIT DEVICES**

Abstract of the Disclosure

5 A method for configuring a plurality of controlling devices includes storing first configuration data for a first one of the controlling devices in a data device. The first configuration data is transmitted from the data device to the first controlling device. Second configuration data for a second one of the controlling devices is stored in the data device. The second configuration data is transmitted from the data device to the second controlling device.
